Cardiopulmonary Resuscitation Training

Purpose

This document establishes the standard that all staff members will maintain appropriate CPR certification.

Audience

The information in this document is intended for all members of the Rehabilitation Services staff.

Policy

The patient care staff of the Department of Rehabilitation Services will be certified, (recertified), in Cardiopulmonary Resuscitation (CPR) as required.

CPR Staff Requirements

All employees will schedule their CPR training/CPR recertification.

Employees may make an appointment by calling the Education Lab at ext. 22823, or making an on-line appointment found on the utmb Health System home page (click on About go to Department and Programs, click on Academics, click on Education lab, click on Calendar)

Each employee is responsible for maintaining current CPR certification and for filing a copy of the current certification with the appropriate clerical personnel.
