

# Downloading Turning Point Software

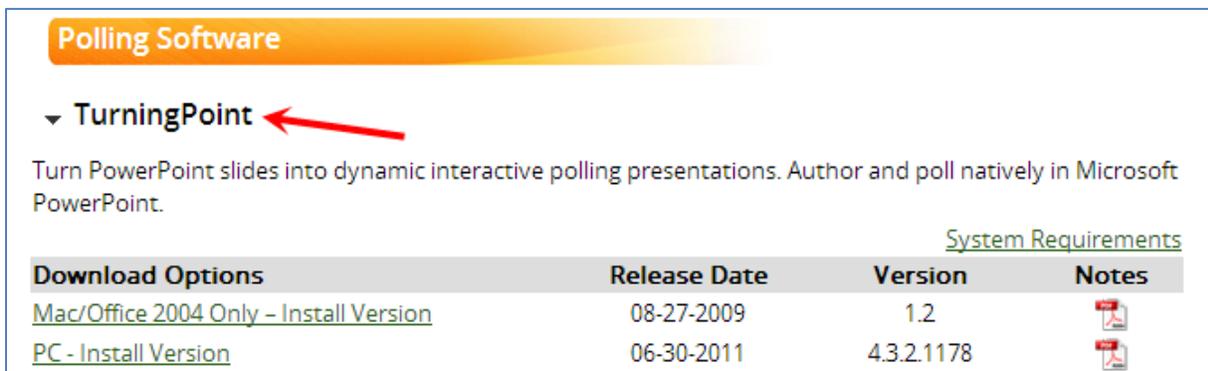

1. Go to the Turning Technologies website: <http://www.turningtechnologies.com/> The software is free.
2. Click on the download tab.

3. Choose the Legacy tab. The most current release is Turning Point 5, but until the glitches get worked out in the new version, we are suggesting you download the Legacy version.

4. Under Polling software choose Turning Point, then whichever operating system you are using.

5. Fill out the Download Registration form. Then follow the remaining download instructions. When you have finished downloading the Turning Point software, see the "Creating Slides in Turning Point" tutorial for further help.
