

Breast Health Care

Services

Breast health care at UTMB is a partnership of leading experts working together to provide compassion, respect, and a convenient range of medical services for the prevention, diagnosis and treatment of breast-related diseases.

Listed below is a partial outline of common procedures we perform in the areas of breast health care.

- Incision, aspiration
- Excisional biopsy
- Sentinel node biopsy
- Lumpectomy
- Mastectomy
- Placement of mammosite catheter
