

Colon and Rectal Surgery

Services

Colon and rectal surgeons are experts in the surgical and non-surgical treatment of colon and rectal problems. They have completed advanced training in the treatment of colon and rectal problems in addition to full training in general surgery. Colon and rectal surgeons treat benign and malignant conditions, perform routine screening examinations and surgically treat problems when necessary.

The following is a list of services provided:

Colonoscopy

- Cancer prevention and surveillance
- Inflammatory bowel disease
- Changes in bowel habits

Evaluation and treatment of anorectal disorders
