

# Complex Liver Disease Surgery

## Services

**W**e have developed a multi-disciplinary group of transplant surgeons, hepatologists, and interventional radiologists to evaluate and manage patients with acute and chronic liver disease and intrahepatic liver tumors. If you have a patient with a Child-Turcotte-Pugh score greater than 7, a primary or secondary liver tumor, portal hypertension with a history of variceal bleed, ascites, bacterial peritonitis, or hepatic encephalopathy please refer them to us. Patients can be scheduled with Anita Gardea by calling (409) 772-1438.
