

Neurosurgery

Services

The members of the Division of Neurosurgery at the University of Texas Medical Branch at Galveston are committed to excellence in the care of the neurosurgical patients in an optimal and safe environment characterized by the highest ethical standards. We offer a full range of services to our patients in an attempt to meet their healthcare needs. The division prides itself on the incorporation of new technologies into the surgical care of patients, resulting in better outcomes, a safer environment, and improved quality of life for our patients.
