2. SERVICE ASSIGNMENTS

A. Service Assignments

Students will be assigned either to the Adult Recon, Pediatrics, Foot and Ankle, Hand, Sports or T/TDCJ. Assignments will be for the full four-week period. There will only be one student assigned per service except in special circumstances (except for TDCJ).

B. Ward Assignments

Students will have patient assignments and duties and will be directly responsible to the orthopaedic resident of each service. Each student will be assigned cases for "work-up" to include a complete history, physical exam, and student treatment plan each as they are admitted to the service, during the four-week period of assignment to the service.

C. Clinics

Student assignments to the Orthopaedic Out-patient Clinics will be made by the Resident of each service. These assignments will be primarily for the purpose of observation.

D. Operating Room

Students are encouraged to observe operative procedures upon patients which they were assigned commensurate to their interest and the need of the particular service under the direction of the chief resident. Students will be selected to "scrub" consistent within the needs of the service as determined by the resident in charge of the case.

3. CONFERENCES AND LECTURES

Didactic conference is held @ League City Campus, League City, TX, Suite 2.205 Wednesday Mornings from 6:30 – 8:00 am. Attendance is not mandatory but highly encouraged.

Fracture Conference is held on Mon mornings @ 6:30 am., Jennie Sealy 11th floor

4. EVALUATION

An evaluation will be requested at the end of the Orthopaedic Surgery assignment to provide feedback information to the Orthopaedic teaching staff.
JUNIOR MEDICAL STUDENT
RECOMMENDED READING

The recommended text for the junior and senior medical students on orthopaedics is listed below:

This is an excellent textbook to have in your library. It is directed toward medical students and family practice residents. Although the text is over 400 pages long, pages have been selected as core reading. It also provides an excellent base for those interested in going into orthopaedics. There is one current version on two hour reserve at the main medical library and there are other older versions of this book available for check out at the main medical library.

The recommended pages are as follows:
