Using its proven telemedicine technology, UTMB is “beaming” a physician to the Island’s West End to provide much needed access to non-emergent medical care.

Assisted by a paramedic, the physician exams the patient remotely using medical devices and a video screen for a face-to-face, real time consultation. Through telemedicine, the doctor can deliver an immediate diagnosis and prescribe any necessary medications.

Clinic Hours:

Every Saturday and Sunday through Labor Day
10 A.M. – 2 P.M.

Special holiday hours for July 4, 2006
8 A.M. – 4 P.M.

Cost: $50 – cash, check or charge

Payment due at time of service. Patient will be provided a copy of medical services received for their primary care physician.

West Isle Telemed is for basic care only. Call 911 for emergent medical needs.

West Isle Telemed--a community partnership between The City of Jamaica Beach, the West Galveston Island Property Owners Association, the Galveston County Health District and the University of Texas Medical Branch
