Use of Tumor Susceptibility Gene 101 (TSG 101) as a Prognostic and Diagnostic Marker

Inventors: Xiaodong Cheng, Fang Mei, Travis Young, Jinsong Liu

Description:
The present invention discloses the link between oncogenic Ras and TSG101 and the negative effect of TSG101 on the expression of p21 in ovarian cancer. The invention also discloses the use of TSG101 as a prognostic, diagnostic marker and a potential therapeutic target in cancer, especially ovarian cancer.

Patent Status: US 7897340
