Uses of Morelloflavone

Inventors: Kenichi Fujise; Nongporn Towatana; Wilawan Mahabusarakam

Description:
Provided herein are methods of treating postangioplasty, in-stent restenosis or atherosclerosis in an individual in need of such treatment, comprising the step of administering to said individual an effective dose of morelloflavone with or with a effective dose of one or more of an HMG-CoA reductase inhibitor or a hypolipidemic agent or lipid-lowering agent or other lipid agent or lipid modulating agent or anti-atherosclerotic agent. Also provided are pharmaceutical compositions comprising a morelloflavone or pharmaceutical combinations comprising a morelloflavone and one of an HMG-CoA reductase inhibitor or a hypolipidemic agent or lipid-lowering agent or other lipid agent or lipid modulating agent or anti-atherosclerotic agent.
