

Instructions for Automatically Clearing Cache - Firefox

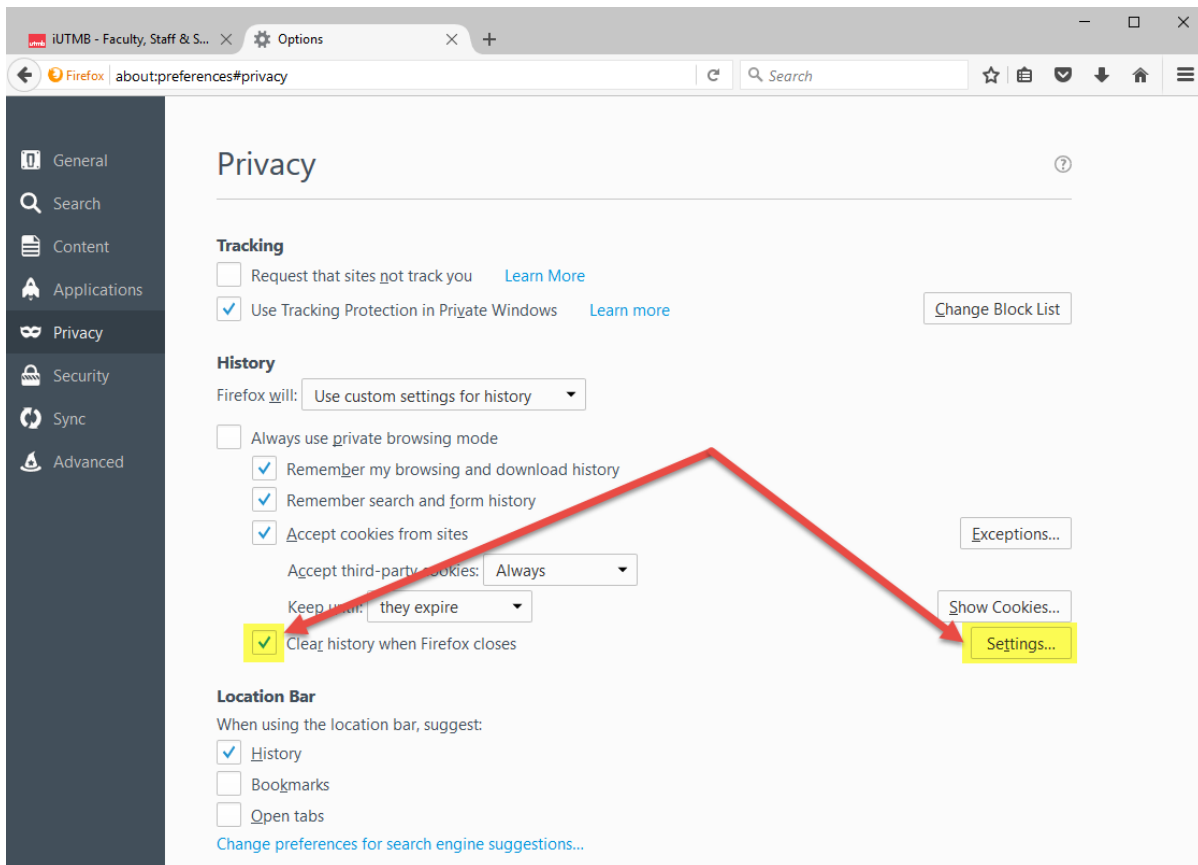

1. Click menu button and open Options menu.

2. Select the Privacy panel and select 'Use custom settings for history' in the 'Firefox will:' dropdown.

3. Check the box for 'Clear history when Firefox closes' and then select the Settings button.

4. In the 'Settings for Clearing History' window, check the box for 'Cache' (the other options are your preference) and click 'OK'. Your changes will save automatically.
