“The...greatest glory is that the leaves of the tree of science have availed for the healing of the nations. Measure as we may the progress of the world – intellectually in the growth and spread of education, materially in the application to life of all mechanical appliances, and morally in a higher standard of ethics between nation and nation, and between individuals, there is no one measure which can compare with the decrease of disease and suffering in man, woman and child.”

-Sir William Osler
Man’s Redemption of Man: A Lay Sermon, 1910
