Medical Director Intervention Protocol Formulated: 10/82	Effective: 11/08/94 Revised: 10/29/14

Medical Director Intervention Protocol

Policy

Any event occurring within Respiratory Care Services requiring physician intervention will be referred to the Medical Director of Respiratory Care Services through the Director of Respiratory Services or their designee.

During the absence or unavailability of the Medical Director, the responsibility for medical intervention will lie with the Medical Director's designee, i.e. on-call staff Anesthesiologist.
