Analyzing FiO₂ on Delivery Systems

Purpose
To standardize the practice of verification of FiO₂ on delivery systems without an integrated oxygen analyzer.

Scope
The Department of Respiratory Care Services verifies the concentration of oxygen delivered to patients by high flow oxygen delivery systems without an integrated oxygen analyzer.

Audience
Licensed Respiratory Care Practitioner in the department of Respiratory Care Services.

Equipment
- O₂ analyzer which has been calibrated per manufacturers procedure
- Analyzer adapter
- 5" flex hose
- Sensormedics Oscillator 3100A/B

Procedure
Note: The following oxygen delivery systems are to be analyzed continuously when in use: High Frequency Oscillators. The analyzer should be calibrated a minimum of once per day (night shift).

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Verify patient's FiO₂ order and patient using two identifiers.</td>
</tr>
<tr>
<td>2</td>
<td>Wash hands per hospital policy and follow any isolation procedure indicated.</td>
</tr>
<tr>
<td>3</td>
<td>Introduce yourself and identify the patient.</td>
</tr>
<tr>
<td>4</td>
<td>Briefly explain the procedure and purpose to the patient.</td>
</tr>
<tr>
<td>5</td>
<td>Prior to placing the analyzer inline, perform a 2-point calibration, according to manufacturer's instruction.</td>
</tr>
<tr>
<td>6</td>
<td>Place the O₂ analyzer in the appropriate place within the delivery system. Keep the analyzer probe positioned so that condensation will not collect on it.</td>
</tr>
</tbody>
</table>
| 7    | Reading should be within + 2% of order FiO₂.  
  - If analyzed FiO₂ is not the same as ordered FiO₂, adjust the device until the proper FiO₂ is reached. |

<th>Action</th>
</tr>
</thead>
</table>
| 7    | • If you are unable to reach the ordered FIO\textsubscript{2} by adjusting the device, remove the analyzer and re-calibrate it.  
• Document FiO\textsubscript{2} in Epic as part of the respiratory assessment. |
| 8    | Document in EPIC as outlined in RCS Policy # 7.1.1. |

Infection Control

Follow procedures outlined in Healthcare Epidemiology Policies and Procedures #2.24; Respiratory Care Services.
